I Grow the Best — Discard the Rest

Greetings . . . To My Friends:

It is with pleasure that I present you with this, my Dahlia Catalogue for 1945. Your generous and kind support is thoroughly appreciated and inspires me to continued effort to make available to you only the best.

This catalog would not be complete if I were not to take advantage of the opportunity to thank you for your many letters telling of various successes obtained from stock purchased from me. I am grateful to those who have been able to visit my gardens as well as those who have inspected my exhibits at the American Dahlia Society Shows, and many other shows we attend, because I feel my dahlias speak best for themselves.

To those who are familiar with my stock, no introduction is necessary and you have my pledge that the same quality will not only continue but improve if such is possible. To those who have not tried my service this is an invitation, an invitation that may prove a real opportunity for you to realize something you may not have been able to obtain elsewhere and no order is too small nor is any contract too large, I am pleased to serve you.

ALBERT PARRELLA.

IMPORTANT NOTICE — DO NOT OVERLOOK

Due to the limited space we are compelled to be brief with our descriptions. However, we want our patrons to know that the varieties listed in this Catalog are either Honor Roll Certificate Winners or has proven with us to be truly outstanding. VISITORS ARE WELCOME

I will have over 300 varieties, most of them Honor Roll dahlias, as well as many promising seedlings, and many new ones sent by other growers for trial and that have not been released for sales as yet, as well as many novelties.

We want to thank those who have sent to us Seedlings for trial this past season. Assure you we have given them the best of attention. We would appreciate receiving more of them for the coming season providing they are good. We will do all we can to put them over.

Parrella Dahlias Known and Grown the World Over! Why Not?

THE PARRELLA DAHLIA GARDENS presents the following introductions for the season of 1945. (See Honor Roll.)

OGDEN REID I. D. (Kelly-Parrella)—A grand dahlia named in honor of the famous editor of the N. Y. Herald-Tribune. This immense champion of a dahlia which grows, normally, 13 inches in diameter, and with a little extra care, could be grown very large. In fact, one well grown bloom shown at The Community Flower Show of Richmond Hill, L. I., on September 9, 1944, received first and special prizes for the largest and most perfect bloom in the show. We do not want to mention size of this bloom as it seems unbelievable. Color Spinel Pink, blended with lighter rose pink with blend and striping of Primuline yellow. Blooms are held facing on canelike stems. Foliage, leathery and resistant to insects. The plant is a vigorous grower and perfect in every respect, free and prolific bloomer. Height of plant, 6 feet. Stock limited. **Roots \$25.00 Plant \$12.50 3 plants for \$30.00**

HILDA FIORETTI S. C. to I. D.

(Fioretti-Parrella)—This is the lovely dahlia that was greatly admired by visitors at the A.D.S. Show in New York. (Remember the basket of large blooms, top center at our display at the A.D.S.?) Hilda Fioretti, a first prize winner at the A.D.S. Show, and received a silver medal at the New York Florists' Club, October 11, 1944. The coloring of this marvelous dahlia is so attractive and outstanding that you cannot forget it. Color, deep rose pink, blended deeper rose color with stripes and fine tips of apricot yellow. Size of blooms, 9 to 10 inches in diameter. The plant is a perfect grower with marvelous branching habits. You could cut from 10 to 20 blooms from each plant of size mentioned, with a $3\frac{1}{4}$ to 4-foot stem. Blooms are held facing on canelike stem. Foliage is insect resistant. Height of plant, 5 to 6 feet.

Root \$15.00 Plant \$7.50

HILDA FIORETTI

SWEET LAVENDER I. D. (Parrella)—A very pleasing bi-color of phlox purple blended with rose lavender with white tips. Blooms average 7 to 8 inches and are held facing on the best of stems. Good foliage and a fine growing plant. Please note, this is the No. 50 T seedling bi-color dahlia that was so greatly admired by visitors on our display at the A.D.S. Show, September 21st and 22nd. And many of your friends made a notation of it. We are always sincere in our statement, we will say that 25% of the blooms will not come bi-color, but just a solid color. That is why we release it at a very reasonable price. Height of plant, 4 feet. **Root \$7.50 Plant \$3.50**

JANE LAUSCHE S. C. (Rocky River)—11 by 6. Bi-color; rosy mauve tipped white. You will hear so much about this dahlia that I will content myself with referring to it as one of the most beautiful dahlias. **Plant \$7.50**

JOAN PHILLIPS, JR. I. D.

This dahlia deserves a place in every garden. Plant, 4 to 5 feet high.

JOAN PHILLIPS, JR.

DR. KENNETH TAYLOR I. D. (Fioretti-Parrella)—This is an unusually fine dahlia which produces plenty of fine blooms, averaging 8 to 9 inches in diameter with great depth. It is a pleasure to grow as the plant is perfect, stem is excellent, foliage, insect resistant and blooms are held facing and on top of best of stems. Color, scarlet red with bronze sheen and reverse of orange buff, showing as petals twist. Height, 4 to 5 feet.

Root \$10.00 Plant \$5.00

**TEN BRIEF SUGGESTIONS TO THE AMATEUR  
ON HOW TO GROW BETTER DAHLIAS**

1. Select easily grown varieties and those giving full satisfaction.
2. Prepare the selected planting spot well and place the supporting stake.
3. Dig a hole next to the stake, about 10 inches in diameter and 7 to 8 inches deep, and place one handful of bonemeal in the hole, or any other recommended fertilizer and mix thoroughly with the soil before planting.
4. Place roots in flat position with the sprout or "eye" facing upwards. Cover lightly with about 2 inches of soil. In doing this be careful not to damage the sprout. As the plant grows, fill around the stem with soil.
5. Do not plant too early. At times, too early planting spoils good roots. I would suggest planting from June 1st on, except in climates where a short growing season is prevalent. In that case use your own judgment.
6. Keep the soil well cultivated throughout the season, and prevent weeds from outgrowing the plant.
7. Water plants during hot weather at least once a week. Do not merely sprinkle them, but soak them. This must be done after sundown.
8. Tie the plant to the supportive stake with soft cord, at distance of 12 inches apart. This is done as an added security against destruction by wind and storm. Spray with any reliable parasiticide at least once every two weeks.
9. About August 1st, scatter a handful of bonemeal about 6 inches around the stem and rake it gently into the soil. Other fertilizers may be used if desired. Do not use excessive amounts of fertilizer as injury to the roots will result.
10. About August 15th, the same treatment as above is applied. Disbudding at this time aids in the formation of bigger and better flowers and longer stems. This should insure good results. If any other information is desirable, I will gladly forward you the same.

We would appreciate very much if you print or write your name and address **PLAINLY**, in order to avoid confusion.

JUST A FEW OF OUR MANY TESTIMONIALS

Dear Sir:

Danvers, Mass., Oct. 18, 1944.

Wish to make a little report on the success that I had with the dahlia bulbs purchased from you last spring. Must say that they were all very pretty and grew fine.

A. M. B.

Dear Sir:

Longview, Texas, Nov. 21, 1944.

I have grown dahlias in Texas for twenty-three years but I have never had one like your Wanda Meade, that could take our hot days and still stay full of flowers. There has not been a single day since June 1st that I have not had flowers on both of them and now the middle of November they are full of buds and flowers. It is the best dahlia I have ever seen—pretty as well as insect resistant.

MRS. R. M. R.

Dear Sir:

Ottumwa, Iowa, Oct. 28, 1944.

I have had some of the best dahlias this year I ever grew and they are still in heavy late bloom here in Southern Iowa.

Dear Sir:

Brooklyn, N. Y., May 21, 1944.

The dahlia bulbs arrived in splendid condition. Will you be so kind as to send your illustrated catalogue.

MISS F. H.

Dear Mr. Parella:

Albany, Minn., October 19, 1944.

The dahlia roots I received from you in the spring were the most gorgeous blossoms we had ever seen.

Dear Mr. Parella:

Natchitoches, La., Oct. 10, 1944.

Thought I might drop you a line about the dahlias I got from you, you may be interested. Had a hot dry summer but the dahlias came thru pretty well. The very early bloomers go to pieces. They don't last until good dahlia weather comes in October. The later bloomers seem to take it better. All your roots did well. Marshall Howe is very good.

Dear Sir:

Auckland, New Zealand, Feb. 29, 1944.

I am writing to you to ask you a favor. My Auntie, who lives in your state and who never tires of telling me about the dahlias she gets from you felt sure if I asked you, you would send me 2 of your illustrated catalogues. She won't part with hers.

MISS W. B.

Dear Mr. Parella:

Received your lovely Xmas card, and thank you for your kind remembrance of me. If all goes well in 45 and Uncle Sam let's us have more gas will be down to see you as I am going to use my car the 1st of the year. I haven't used it since the chauffeur went away two years ago. He is still down in Maxwell Field. I had such grand luck with my dahlias last season. Some display Vin well crinkles and Vin W. Dainty was one mass of blooms and Katie K was so beautiful, some size; also Bakers Best; even the roots I had of you before done so well. You will hear from me in the spring. Am anxious to see some of the newer ones next season. Merry Xmas and Happy New Year to you all.

Dear Mr. Parella:

Scarsdale, N. Y., Dec. 17, 1944.

I thought you might like to see what results some of us amateurs get from your roots and plans. That is Lynn Fontaine I am standing beside, it measured 13 inches across. The Paragon and Adele Henderson are in the background. You can see by the picture that not only the flower but the stems and foliage are very good.

To whom it may concern:

Jersey City, N. J., March 24, 1944.

Having read your Dahlia advertisement in the Sunday American, I am sending my request for the free catalog. I have seen some of your flowers at Bronx Park and like them very much. Thanking you in advance, I remain,

L. M. R.

Please Note: Regardless of the draught and the hurricane which visited us just a few days before the dahlia show, we were still able to stage this lovely Gold Medal display at the A.D.S. show in New York. No. 1 in the center of our display is Sweet Lavender. This is the seedling that was marked No. 50T that many made a note of. No. 2 the huge top center basket is the lovely Hilda Fioretti, so greatly admired by all and a first prize winner at the show. We may add that Hilda Fioretti received a Silver Medal at the New York Florists' Club, October 11, 1944.
